

Monitor Advertising

In today's economy, we understand the difficulty of promoting your business while struggling with a limited advertising budget. We now provide a way for you to maximize exposure for your business while minimizing your cost with our Monitor Advertising Program.

Your advertisement will be displayed on our 32-inch LCD monitors whenever the bowling center is open resulting in over 200,000 advertisements spots per year. With the strategic location of our advertising monitors—8 dedicated advertisement monitors installed over our bowling lanes, as well as 1 monitor behind our main desk—your business will be consistently exposed to a captive audience in a high-traffic venue with thousands of weekly league and open bowl customers.

All of this exposure is available for less than \$2 per day. Advertisement spots are limited, so sign-up to guarantee your spot today.
